# What problem does our website solve??

We are presenting a platform to show our love and care for the lovely creatures who don't have a home, family and words to express themselves. Somewhere they are looking for a home and support from those who understand their feelings.

# AN INTRODUCTION

---

This Site includes a lot of features:

- Adopt a Pet
- PawSpa
- Products
- Donation

Site : <https://aaquibkazi.github.io/PawHouse/>

Code : <https://github.com/AaquibKazi/PawHouse.git>

# ADOPT A PET

---

In this feature, you can adopt a pet of your very own! Just choose a pet of your choice by clicking the dropdown list. You can see a preview of the pets and click the link to adopt them!

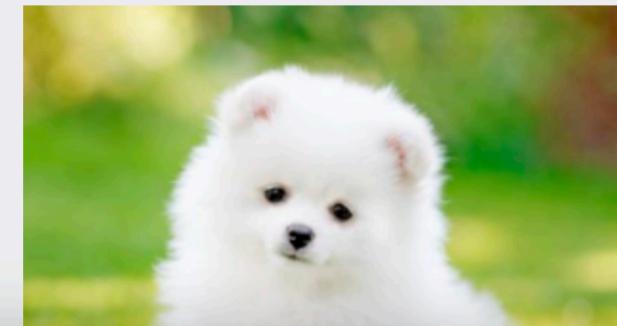

# PAWHOUSE

Find your PawSome pets here!

# Feedback

---

**By giving your feedback, we will be able to improve our website and make it even better. It will just take a few minutes of your time.**

The screenshot shows the Pawhouse website's feedback page. The header features a blue background with the Pawhouse logo (two yellow paw prints) and the word "PAWHOUSE". Below the header, a sub-header reads "Find your PawSome pets here!". A navigation bar contains links for HOME, ABOUT US, OUR STORES, ADOPT A PET!, PAWSA, DONATE, FEEDBACK, and PRODUCTS. The main content area has a white background and asks "We would love to hear from you". It includes input fields for "Your name:", "Your age:" (with a dropdown menu showing "10-15"), "Your Feedback:", and a "Submit" button. At the bottom, a black footer bar contains the copyright notice: "Copyright @ Amal Amzath, Imthiyaz Najeeb, Aaquib Kazi and Muskan Bhalla".

THANK YOU!
